PEAK™

THE ULTIMATE FITNESS & SLEEP TRACKER

Peak™ offers you deep insights into how your body is performing, from workouts to sleep and everything in-between. Peak combines comprehensive fitness and sleep analysis – including heart rate during exercise – with smartwatch notifications, making it the ultimate, all-in-one device.

FEATURES OVERVIEW

ADVANCED FITNESS AND SLEEP TRACKING
Get the full picture – from activity duration to calories burned to sleep quality and more.

CONTINUOUS HEART RATE MONITORING
Real-time heart rate on your wrist that provides 24/7 insights including heart rate during exercise without a chest strap.

SMARTWATCH NOTIFICATIONS
Alerts you when someone calls, emails or texts right at your wrist (available as free future upgrade).

AUTOMATIC ACTIVITY TRACKING
Get instant credit for your walks, runs and outdoor bike rides with dynamic caloric burn calculation.

IN-DEPTH SLEEP METRICS
Automatically detects sleep stages, including REM/Deep/Light Sleep, as well as Toss-and-Turn and Sleep Quality.

HEALTHY HABITS SYSTEM
Basis turns insights into action by helping you determine your daily goals and then automatically adjusts your targets based on your progress.

MOBILE FOCUSED
Supports iOS and Android with wireless background syncing and upgrades through Bluetooth Smart™.
